GIVING OUT POLICE NEWS

Bureau of Information Established by Commissioner Wight.

INAUGURATED AT NOON TODAY

Everything That Comes to the Knowledge of the Police of the Several Precincts to Be Telephoned to the Central Station for the Use of Reporters.

The central telephone bureau of the police department has been established for divers purposes. It went into operation at noon today. Operator E. L. Phillips received the first message from the Fifth precinct station, and immediately transmitted it to the press. It was:

"No dead animals, no dangerous holes, no fires, no assaults, no anything."

A few minutes later Commissioner Wight appeared, together with Inspector Ma-

thony, Chief Clerk Sylvester and Supt. Miles. Mr. Wight explained the details of the new plan to Mr. Phillips, who became the operator for the first track of duty.

In connection with the system the new installation will be opened also as a press bureau. Information will be given to the press in writing. Duplicate copies will be made of all messages received not marked "private," and the copies will be handed each reporter. Messages marked "private," however, will not be given to the press. This arrangement is not intended to affect in any way the information being obtained at stations, no instructions having been issued against it. In addition to Mr. Phillips the operators will be J. J. McGowan, Will Ames and Police-nan Samuel H. Murphy.

The following order gives the details of the system:

Headquarters, Police Department.

By Order of the Commissioner, Nov. 8, 1897.

The bureau shall be known as the Central Station.

There shall be three operators, who shall be designated as follows: 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd,
